PROFILE

A hard-working and motivated Physics student with a wide range of experience outside of academia including Web Development, Tutoring and Volunteering. I am eager to apply my experience to a Summer Internship.

KEY SKILLS

- Over 1 years' experience using **PHP, MySQL, HTML, CSS** to develop CRUD web-applications
- Over 1 years' experience using **Python** to model physical systems and perform data analysis

EDUCATION

University of Birmingham | BSc Physics | 2018 -2021

2:1 First and Second Year

Langley Grammar School | A-Levels | 2015 – 2017

A*AA in Mathematics, Physics and Chemistry

Long Close School | GCSE's | 2010 – 2015

6 A*'s, 3A's, 1B

EXPERIENCE

Web Designer | Comfort Care Services | July 2019 – September 2019

Addressed issues in the organisation by designing software to meet business needs. This primarily involved designing an Audit mobile application to allow auditors to conduct audits on-the-go. Created detailed software requirement documents and communicated the requirements with outsourced developers to ensure that the developed software addressed the original issues.

Web Developer | Comfort Care Services | August 2017 – September 2018

Gained experience in the full software development cycle using the LAMP stack and astute commercial awareness through leading projects to solve problems in the company. The main project involved creating an online Audit system to replace the old Excel-based system. This sped up the Audit process, increased GDPR-Compliance and made the process more collaborative.

Teaching Assistant | AE Tuition | September 2016 – August 2017

Tutored students facing difficulties in English, Maths, and Science in 1:1 Support Sessions. Worked in a team of Teaching Assistants to mark homework, review student's progress, and give advice to parents. A creative approach was required to successfully tutor students with a variety of academic abilities.

ACTIVITIES AND INTERESTS

Volunteering with IVHQ in Nepal | June 2018

Taught English to Primary School students for a month in a Government school in Pokhara, Nepal.

Silver Duke of Edinburgh Award | 2015 – 2017

Involved learning First Aid, doing Kickboxing and volunteering at a local charity shop. Developed teamwork skills through completing a three-day expedition in the Lake District and time-management skills through balancing the award with a part-time tutoring job and A Levels.

National Citizenship Service Challenge | 2016

Pitched to local businesses for funding to hold a fun day for children with Autism. Donated proceeds from the event to Slough Crossroads and raised awareness of the issue through campaigning in the local area.

ADDITIONAL SKILLS

SVN Version Control | FileZilla FTP | Database Design | Latex | Microsoft Office | Windows | Linux | IOS | Android
